Wonderful Root System

## TERMS

Prices net and subject to change without notice.

All goods travel at purchaser's risk and expense.

Prices are F. O. B. Holland, Mich.

Packing and Cases will be charged at cost price.

We allow 5% discount for cash with order, 2% 10 days or net 30 days after date of invoice.

All offers subject to goods being unsold upon receipt of order.

Orders from unknown parties must be accompanied with cash or satisfactory reference.

All claims for damage occurring in transit should be made on the Railroad or Express Company delivering the goods. If boxes are broken or any other visible damage done, it should be noted on the receipt to be used in filing claim.

## CANADA

Prices quoted in this catalogue are in American Currency. Canadian customers should remit by draft on New York or Postal Money Order payable in American dollars.

## OUR GUARANTEE (Read Carefully)

All plants offered in this list are grown in our own nurseries and handled by experienced help, so that such stock as grown from cuttings or divisions, we know to be true to name and are glad to guarantee it as such. Should it by mistake prove otherwise, we shall gladly refund, upon proper proof, the original amount paid for the stock, or make replacement of the original order. Plants grown from seeds are from seed stocks obtained from the most reliable growers. Seeds, however, do not always come true to color of some kinds of plants, so that, while we are always interested in the results obtained from our stock and glad to meet our customers in possible disappointments, we cannot be held responsible.

We do not divide our plants before shipping, but send the entire plants as dug out of the field. Dividing is only done in rare cases and then only because it is necessary to get the best results.

If after receiving, you are not satisfied with the quality of our stock, you will afford us a favor by letting us know and we will replace anything you mention without charge or further question, providing complaint is made within ten days from date of invoice.

## A FEW POINTERS TO REMEMBER

All our Perennials are strong, field grown stocks.

All our Perennials have been transplanted into the field.

All our Perennials are shipped as dug from the field.

All our Perennials are shipped from young stocks; no old, overgrown stock.

All our orders are checked three times before going into the box.

Our aim is a larger Perennial business—to that our efforts are continually directed.

# WELLER'S PERENNIALS

*"With the Wonderful Root System"*

A Slogan that carries the Goodwill of Hundreds of our Customers

## INTRODUCTION

Space is too limited to say everything about Perennials we would like to tell, though we are so enthusiastic about their possibilities in every branch of Floriculture and Horticulture that we could probably write books about them. As we advance, however, we aim to render our customers such service and furnish them with such information as will enable them to take up Perennials commercially and make them a profitable and important part of their business.

## OUR NURSERIES

Our nurseries are located in Holland, Michigan, consisting of one hundred acres of the finest sandy loam soil and with enough variety for adaption to all classes of plants. The growing is completely supervised by five members of our own family, so that we have the strictest order among our employees and have a great advantage over many nurseries, continually confronted with the scarcity of experienced help.

## OUR PACKING

Our packing as well as our digging is supervised by two members of our family, one in the grading room and the other in the packing room. The interest of our customers is, therefore, continually at heart, both in the grading of the stock and in packing for a safe transportation. All orders are counted and checked three times before boarding a train, first in the field, second in the grading room and third when packed, so that mistakes are hardly possible.

## OUR CATALOGUES

Our catalogues serve two purposes: one to offer our goods for sale and the other to render our customers service in whichever way possible, with all kinds of information valuable to every branch of their business. You will, therefore find it a great convenience to save it and keep it in a handy place for easy and immediate reference at any time.

## FLORISTS

The necessity of Florists having "A Patch of Perennials for Cutflowers" has already become vital. This catalogue will furnish you with all information necessary to make such a planting. If our personal advice is required, ask us for it.

## NURSERYMEN

Neither can the nurserymen ignore the Perennials; the public wants them. Our catalogue is the most complete Perennial catalogue out, and is compiled in a manner that will enable the Nurseryman to give his customers reliable information about Perennials and their habits. We grow large quantities of the most popular kinds, so that we are always prepared for large orders and glad to make special quotations in such cases.

## LANDSCAPE GARDENERS

We are probably in a position to serve Landscape Gardeners better than most growers of Perennials. Our list of varieties is complete, our stock will flower in abundance the first season, and our catalogue is the most descriptive.

Cordially yours,

**WELLER NURSERIES CO, Inc.**

Holland, Michigan.

# Weller's Herbaceous Perennials

## For Fall and Spring Delivery

### Why You Will Find Weller's Perennials the Best and Most Satisfactory

Because we make a specialty of growing them to perfection, and make it our point to give you SERVICE, QUALITY AND VALUE. Our plants make REAL ROOTS, and what is more important to a Perennial than a GOOD ROOT SYSTEM?

All plants offered in this list are strong, field-grown—the only Perennials that give satisfaction. They are far better than pot-grown plants, as they are more vigorous and healthy, and sure to flower in abundance the first season. We want your business, and to keep it, for we are growing more every year. You will not appreciate our stock and good service until you have convinced yourself by a trial order.

### GENERAL LIST

Those marked (\*) are especially suited for cutting; those marked with (†) are best suited for rockeries.

In description the flowering period is indicated by the name of the months as May-June, etc.

All Perennials two years old unless otherwise indicated.

	Per 10	Per 100

MIGNON DAHLIAS

Traveling in Europe three years ago, Mr. P. Weller was surprised at the popularity of the Mignon Dahlia over there. Everywhere he observed most gorgeous and striking beds of these beautiful flowers—in parks and private gardens, along boulevards and driveways. He made up his mind that if anything should be introduced in America, it should be the Mignon Dahlias. Since then, we have been growing them with wonderful success. We have been selling at wholesale—a fine mixture—for the last two years and we have had several compliments from our customers as to the wonderful show they made the first summer after planting and that they were selling well at retail and brought several repeat orders.

The Mignon Dahlia is unsurpassed for bedding plants, where quantities of flowers are required during the summer months. These single-flowered Dahlias attain a height of about 18 inches and begin to flower early in June and continue to do so until frost. The flowers are about 2 to 3 inches across and the colors are most striking, from pure white to golden yellow and orange and from light pink to deep carmine red and purple. They should be set about 18 inches apart in beds in June, either in the border or solid beds.

Surplus List of Ornamentals and Evergreens

SPRING 1933

TO OUR NEIGHBORS AND FRIENDS:

We have a small surplus of the following Trees and Shrubs, which we desire to clean up to our neighboring Florists, Nurserymen and Landscape Gardeners at most reasonable prices to clear our land and make room for our next year's Perennial plantings. We prefer to sell to those who are located within driving distance of our nurseries so that they can drive over with their truck and pick it up themselves. In this way the cost of packing and transportation is eliminated. On a large order, however, we will be glad to make arrangements for us to deliver at a moderate cost. The most satisfactory method is to drive over and see the stock, the same as you are doing for your Perennials.

All our stock is well selected and must be satisfactory.

WELLER NURSERIES CO., INC.,

EVERGREENS

Although we do not grow a long list of varieties of evergreens, those which we do grow we can honestly state are the finest that can be found in the State of Michigan. All our evergreens have been properly transplanted or root-pruned and trimmed to perfection. A visit to our nurseries will convince you. We are not equipped to pack small orders for evergreens and can only sell in carload lots, but we would rather have you come to see them and take them along yourself by truck, which is the most economical way. We have a wonderful stock of Juniperus Pfitzeriana in all sizes and they are perfect.

# Weller's Forcing Specialties

For Pot and Bench Cutflower Growing.

## VARIETIES TO BE GROWN AS POT PLANTS:

DIELYTRA (Bleeding Heart)		Per 10	Per 100
SPECTABILIS. This has long been used by Florists as a Valentine Day Specialty as well as for the other Spring Holidays. Be sure to grow it this fall and get your stock in by December and pot them up. Keeping them in a cool place until you want to bring them inside as it takes only about six weeks to bring them into flower when handled this way.....		\$3.00	\$25.00
FUNKIA (Plantain Lily)			
UNDULATA MEDIO VARIEGATED. Variegated leaves. Makes a good foliage pot plant for Easter. Handle like Bleeding Hearts. They also take about six weeks to develop a fine plant.....		1.50	12.00
SAXIFRAGA (Rockfoil)			
CORDIFOLIA. Beautiful green foliage plant producing a most beautiful lavender-pink flowering spike. To be handled like above varieties.....		2.50	20.00

POT PLANTS—Continued.

Per 10 Per 100

SEDUM

MAXIMOWICHI. Bright yellow flowers with pretty foliage.....	\$1.75	\$15.00
KAMCHATICUM. Bright orange. 6 inch.....	2.50	20.00
MEDDENPIUM. Dark red, daphne-like foliage with pretty bright yellow flowers in star-like shapes.....	3.00	25.00

SPIREA ,Astilbe)

*AMERICAN. Large violet pink.....	3.00	25.00
AVALANCHE. Snow white.....	3.00	25.00
GLADSTONE. Best pure white.....	3.00	25.00
GLORIA. Deep crimson.....	3.00	25.00
*MOWE. (New.) Beautiful carmine red.....	4.00	35.00
PEACH BLOSSOM. Light pink.....	3.00	25.00
PHILADELPHIA. Violet pink.....	3.00	25.00
QUEEN ALEXANDRIA. Clear pink.....	3.00	25.00

These are well known in the trade for their beauty and our stock of them is the finest we have ever grown. There is nothing prettier when they have been grown right. It requires about 12 weeks to force them into flower.

AZALIEA MOLLIS (Chinese Azalea)

HARDY CHINESE AZALEA. Well budded for forcing. They come in shades varying from light pink and yellow to orange. A really worthwhile specialty. 8 inches. Well-budded plants.....	12.00	100.00
---	-------	--------

DAPHNE CNOERUM (Garland Flower)

Beautiful soft pink flowers. Very fragrant. Used a great deal by European and Eastern Florists.

8-10 inches .....	6.00
10-15 " .....	7.50
12-15 " .....	10.00

VARIETIES FOR BENCH CUT FLOWER GROWING

BETONICA (Betony)

GRANDIFLORA ROSEA. Beautiful bright rose spikes. Get them in the fall and store them in a cold frame or root cellar and plant them about Jan. 1. Spaced and handled like Carnations.....	1.25	10.00
--	------	-------

ELDER DAISY

Handle like above variety and plant in February. Will bloom in about 5 to 6 weeks. Valuable for earliest spring flowers.....	1.00	8.00
--	------	------

DELPHINIUM (Larkspur)

BELLADONNA. Sky blue. 2 year.....	1.00	8.00
BELLAMOSA. Deep blue. 2 year.....	1.00	8.00
ENGLISH HYBRIDS. Selected strain. 2 year.....	1.00	8.00
LARMARTINA. Deep blue with conspicuous white center. Handle like above varieties but plant about Jan. 1. Require about 8 to 10 weeks to flower.	1.75	15.00
Delphiniums make exceptionally fine winter cut flowers and we will ship only stock that has been grown especially for forcing.		

ERIGERON (Fleabone)

SPECIOSUS. Large, handsome blue flowers, yellow center. Resembles a large beautiful blue daisy. Plant about Jan. 1.....	1.25	10.00
---	------	-------

HEUCHERA (Coral Bell)

BREZOIDES. Profuse tall pink bloomer, making a very fine and different cut flower. Plant about Jan. 1.....	1.25	10.00
--	------	-------

PHLOX SUFFUTICOSA

ALPHA. A beautiful Cerise-pink Lingard type Phlox.....	1.75	15.00
MISS LINGARD. Earliest pure white.....	1.25	10.00
PINK BEAUTY. Clear mauve-pink. An early and as large as Miss Lingard.	1.50	12.00

Few Florists have ever realized the possibilities in growing the Lingard type of Phlox for cutting and that it also makes a wonderful forced cut flower, either in the greenhouse or cold frame. This type usually holds up and forces very readily. A few of our Eastern customers have made a specialty of this for years. Can be planted inside from Jan. 1 on, or planted directly into a cold frame in the fall. Do not miss this.

VIOLA ODORATA (Violets)

EMPRESS AUGUSTA. Finest dark blue.....	1.25	10.00
PRINCE OF WALES. Large true violet color.....	1.00	7.00
QUEEN CHARLOTTE. Very large dark blue.....	1.25	10.00

(Plant these about Dec. 1 and have a nice supply of violets to draw from all during January, February and March.)

We are making a real specialty of growing, selecting and curing strong field-grown clumps of all these items so that you may expect the finest material possible for your greenhouse plantings this year.

# Weller's Supreme Quality Peonies

GROWN FOR THE TRADE ONLY

True to Name and Strictly Free from Disease

VARIETIES SUITED FOR ROCKERIES

At various stages of our lives come changes in fashions, building, recreation and everything else that is worth our time and consideration, so why should there not be one in gardening? There is, however, one difference: while change in everything else puts the old method out of date, in landscape gardening it means just another way of doing things; in other words, a larger variety, a bigger field. This is true in Rockgardening—practically a new fad, but a good one and here to stay. You will lose business by not having a good collection to offer. Plant a collection in your trial grounds where people can see them and they will buy.

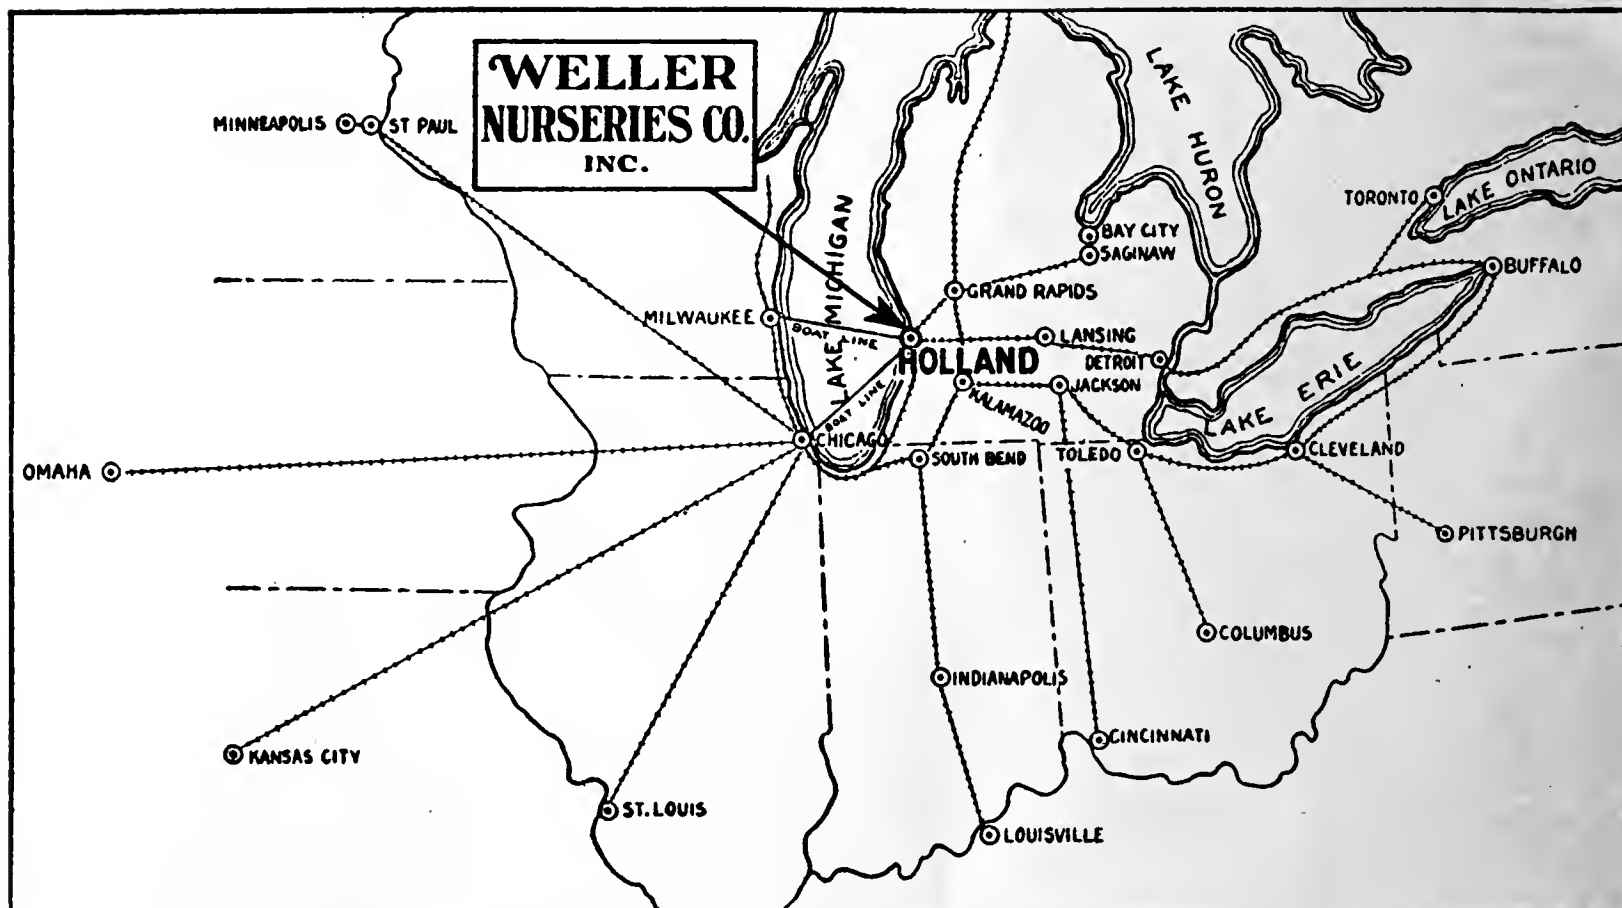

The following varieties of Perennials are suited for Rockeries and can be found in our general list in their respective places alphabetically marked with (†) in front, with description, and reasonable wholesale prices.

Achillea Tomentosa	Jasione Montana
Ajuga Reptans	Lavendula Vera
Alyssum in varieties	Leontopodium Alpinus
Anchusa Myosotiflora	Linaria in varieties
